FOR IMMEDIATE RELEASE

Internet Ministry Offers Spiritual Help for the Struggling this Christmas Global Media Outreach Shares the Gospel Using New Web Site

LOS GATOS, Calif., Dec. 16, 2009 - Global Media Outreach (GMO) is reaching people for Jesus during the Christmas season with a special Web site: www.JesusinChristmas.com. Although Christmas is a time of celebration and peace for Christians, for many people this time of year brings incredible struggles with relationships, finances, depression and even suicide. And many of those people go online looking for spiritual help.

This special Web site, www.JesusinChristmas.com, is available through GMO so seekers can discover the real meaning of Christmas. It is also a tool for Christians interested in reaching people during this holiday season to use to share with their friends and so that everyone who is seeking during the Christmas season can find Jesus.

“For many, Christmas is a season of joy and celebration of Christ’s birth, and the hope that we have in Him,” said Walt Wilson, GMO founder and chair. “We realize many people are struggling and wanted to make a Web site easily available for those seeking spiritual help during this time of year.”

This Web site and season provide a perfect opportunity for Christians to reach their unchurched neighbors and friends. In a world where fear, uncertainty, pain and stress rule the day, the story of Christ’s birth provides the reality of God’s plan for salvation. Through www.JesusinChristmas.com, everyone has a chance to decide how they will respond to God’s greatest gift.

GMO is a California-based ministry with the vision of giving everyone multiple opportunities to accept Jesus Christ, seeing hundreds of millions receive Him, build them in their faith and connect them to Christian communities and churches. GMO is using Internet and other emerging technologies to effectively and efficiently convey the love of Christ and plan of salvation across the globe. Since their inception in 2004, GMO has seen the number of people indicating a decision for Christ grow from 21,066 people annually to more than 3 million people in 2008. Beginning in June, more than 1 million people have indicated decisions for Christ through GMO Web sites each month. For more information about GMO, please visit www.gmoreachtheworld.com.
