**FOR IMMEDIATE RELEASE**

## Oasis of Hope Expert Discusses Breast Cancer Awareness Month:

### Dr. Leigh Erin Connealy Is an Authority on Hormonal Balance

**WHAT:** October is National Breast Cancer Awareness Month. The American Cancer Society says that breast cancer is the second-most common form of cancer in the United States among women, behind only skin cancer. More than 200,000 American women will be diagnosed with breast cancer this year, and 40,000 of them will die from the disease.

**WHO:** **Dr. Leigh Erin Connealy**, founder of the Center for New Medicine in Irvine, Calif., and a distinguished member of the staff at Oasis of Hope California in Irvine. Dr. Connealy is an expert on hormonal balance; most women suffer from a hormonal imbalance called "estrogen dominance" that has been clinically proven to increase the risk of breast cancer.

Dr. Connealy is a frequent guest on the Trinity Broadcasting Network. She is also a weekly co-host on Frank Jordan's national radio show "Healthy, Wealthy & Wise" and appears on television shows that highlight health topics, such as "Know the Cause" with Doug Kaufman, which airs across the country daily. She has been published in The Journal of the American Nutraceutical Association and Healthy Aging magazine.

**WHEN:** By appointment via phone or in studio in Southern California.

**DETAILS:** Oasis of Hope Health Group is one of the world's leading institutions in the research and treatment of cancer with integrative therapies, combining the best of conventional and alternative methods. Oasis of Hope, founded by the late Dr. Ernesto Contreras Sr. in 1963 in Playas de Tijuana, Mexico, has treated more than 100,000 patients – 60 percent with cancer – from some 50 countries.

**NOTE:** For more information or to schedule an interview with Dr. Leigh Erin Connealy, contact Steve Yount of A. Larry Ross Communications at 972.267.1111 or [steve@alarryross.com](mailto:steve@alarryross.com).
